Charitable Donations

Your local charity shop
Your local charity shop is the ideal place to donate any unwanted items. Most shops will accept clothes, toys, electronics, small furniture and general bric-a-brac.

Unwanted furniture?
By donating or buying second hand furniture you can help the Council for charities and local reuse organisations. Many of these organisations will pick up your items.

Time for a new wardrobe?
You can donate any unwanted, clean or worn clothes and shoes within clothes banks.

It doesn't have to be 'The End'
Donate your books in the media banks of any Recycling Centre.

Got a shiny new phone?
Most charities accept old mobile phones which they can recycle or sell. They can make valuable funds for raising money from the recycling companies.

Why recycle?

If you put the wrong stuff in the wrong bin, it costs your Council millions of pounds every year. This is money that your Council could have spent on other services. Recycling helps to collect items that can be made into new materials which is saving resources and better for our planet.

Please remember that you should use the bins or containers provided by your Council. Do not put items out on the pavement as you may be given a fine for fly tipping.

Write down why you should recycle
